Impact Report

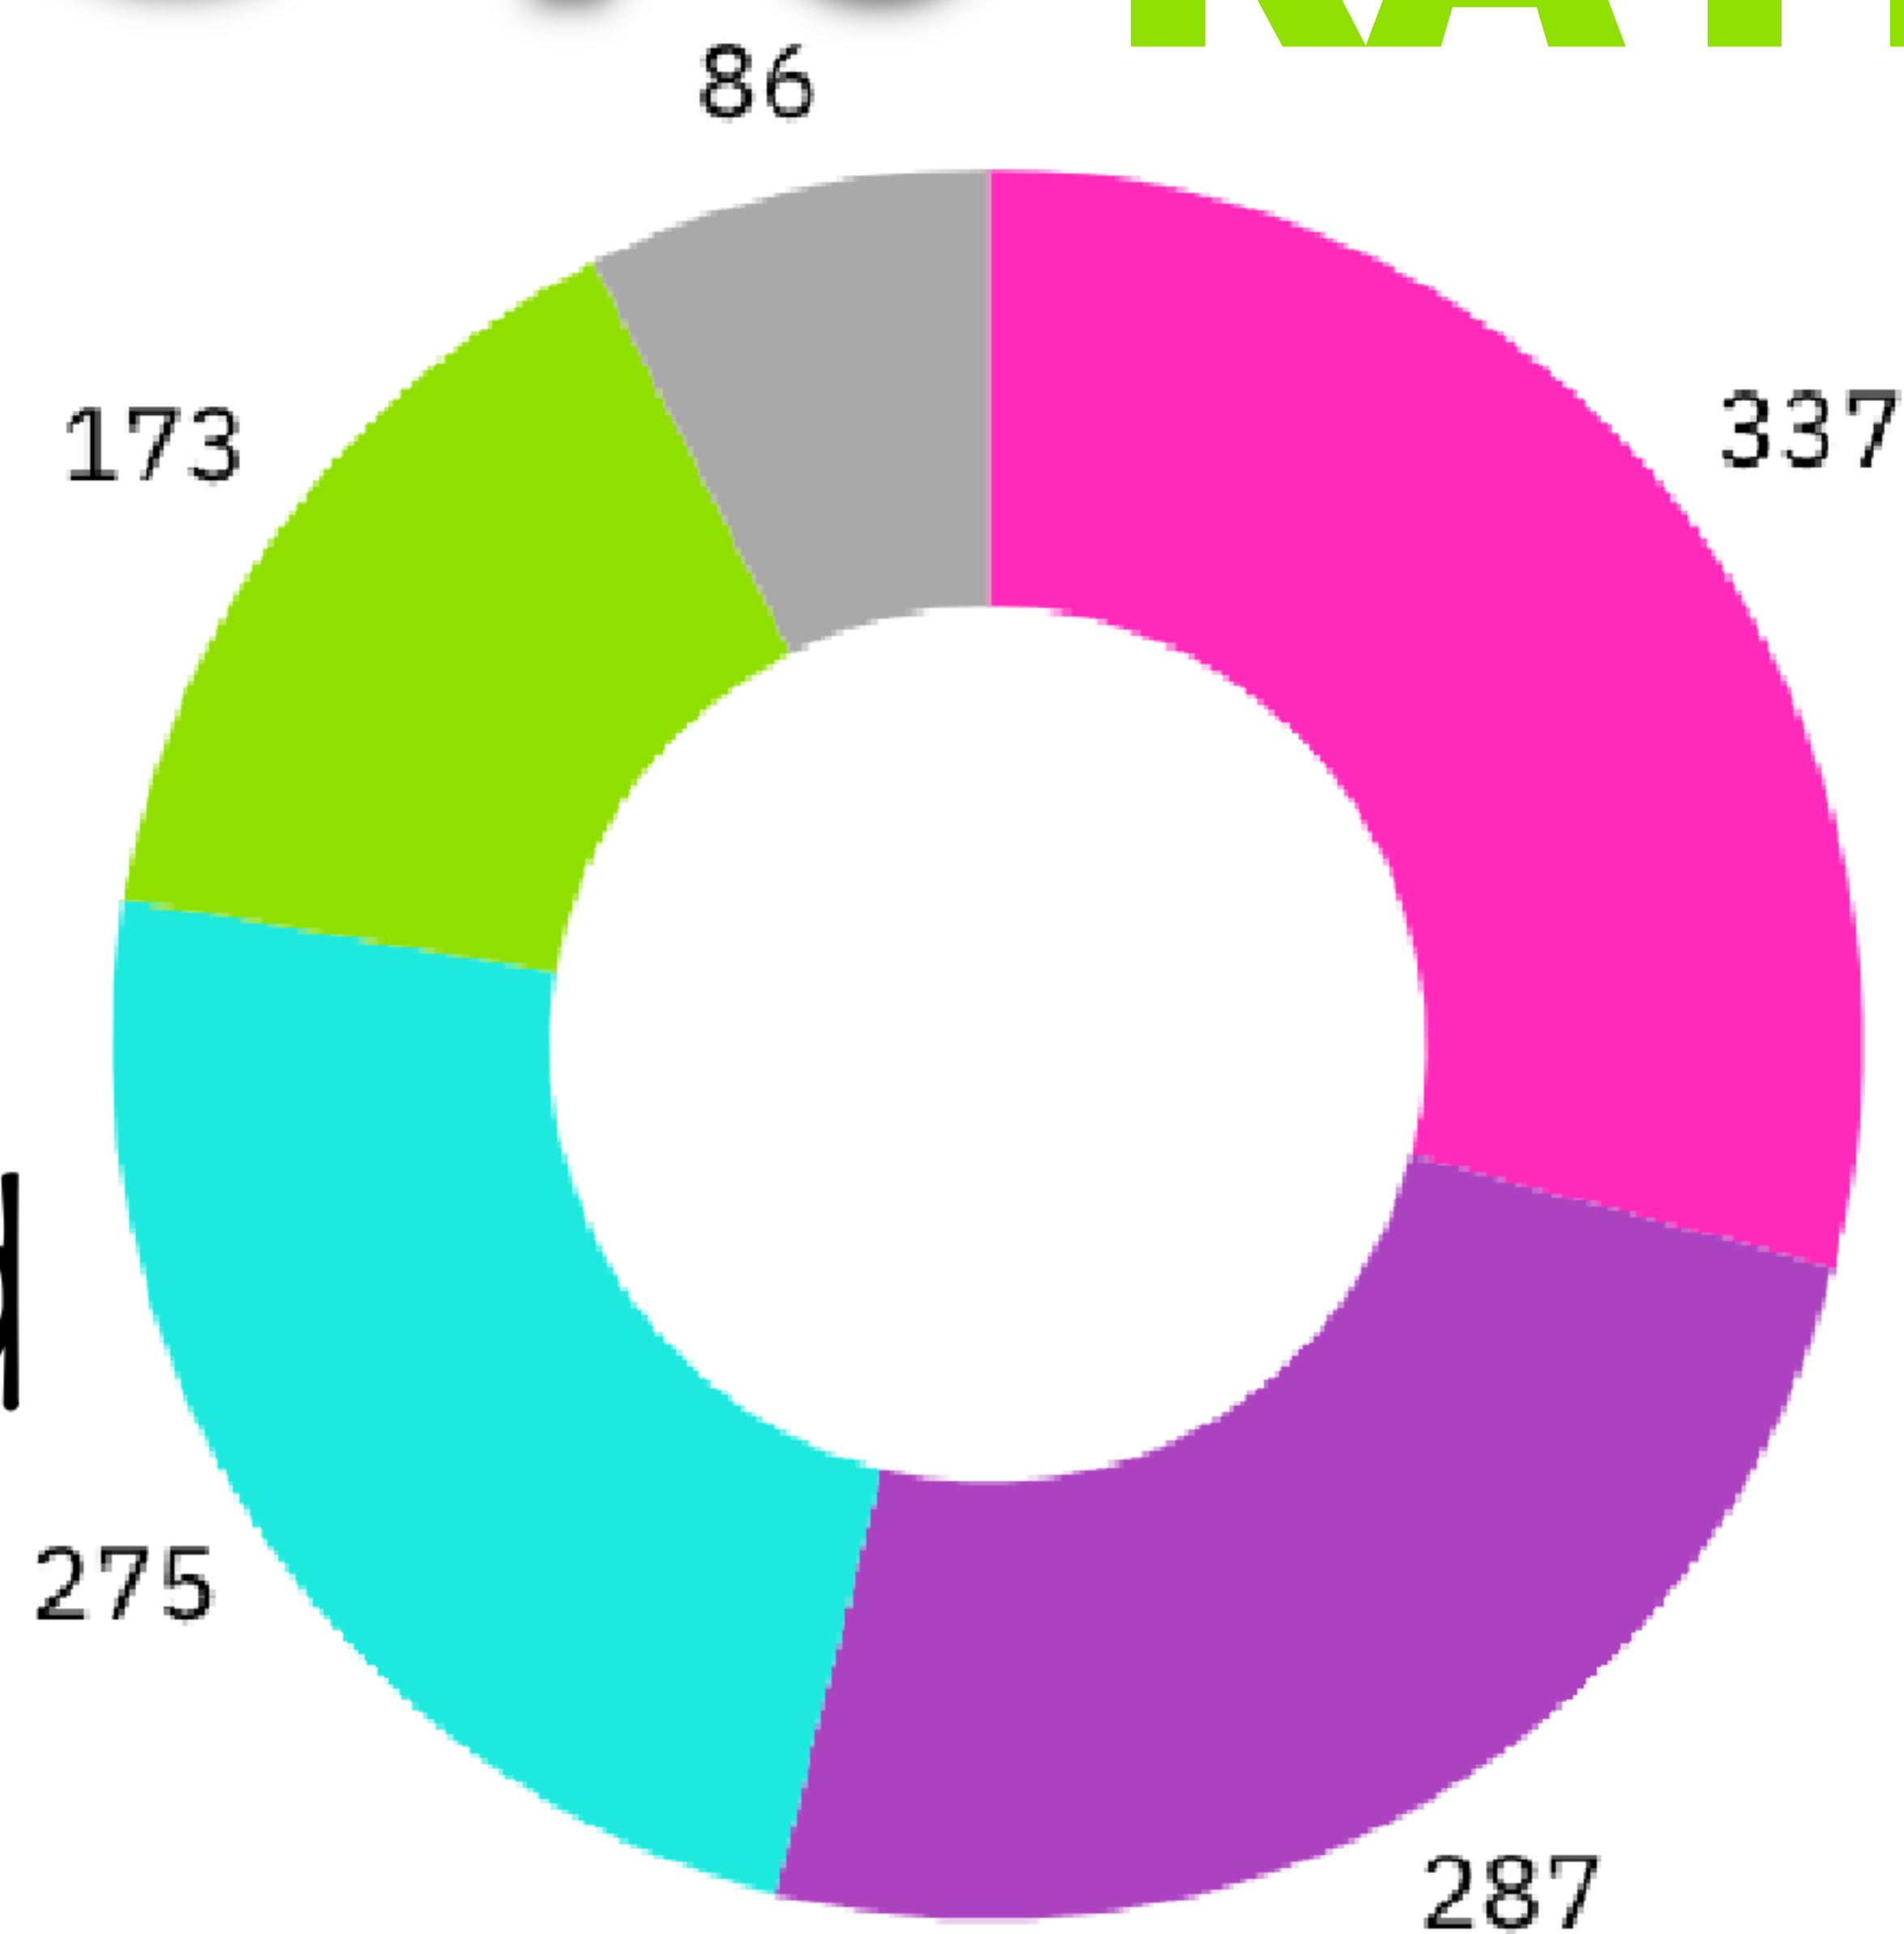

98% SAVE RATE

How is the save rate calculated?

At H.A.L.O., we are firm believers in a transparent "noses in, noses out" reporting method. We believe that every life matters and we do not leave any animals out of our calculations under any circumstances including animals that were lost in care. We are proud to have achieved a 98% save rate in 2024!

Lives Saved

Cats Dogs Kittens Puppies Small Animals

1,039 Adoptions
